

Modules: TensorMRIThreshold

Help & Acknowledgement

3. Quantify and show the differences

Find differences between the baseline and follow-up volumes according to the deformation field.

Choose the percentage of shrinkage to show in the output (green):
78.00

Choose the percentage of growth to show in the output (pink):
85.00

Run tensor measurements

Measurement status: Done. LabelMap created.

Navigation buttons: back, forward
